

LIGHTENING

A black and white photograph of an antique lamp. The lamp has a tiered, ornate base and a curved arm ending in a finial shaped like a lion. The background is dark and out of focus.

*Manufacturer of Antique
&
Contemporary lights*

“Lightening” is formed to Fabricate & Manufacture the special types of tailor-made lightening structures of ferrous & nonferrous metals to create special effects, designed by the eminent interiors & architects like you & desired by the end users for a Royal Projects or for a Cozy seating place too. We have all infrastructure & facility to meet your requirements / ideas to give them exact desired shape & size with perfect finish. Here quality is the essence of manufacturing.

The background image shows two floor lamps. The lamp on the left has a solid black conical shade and a base made of several thin, parallel vertical rods. The lamp on the right has a similar base but a more textured, possibly fabric, conical shade. The scene is dimly lit, with the lamps providing the primary light source. A bright yellow vertical bar is on the left side of the frame.
